USER GUIDES

Nothing like it!

MORE THAN 30% water-saving
(Official SANParks trial in Kruger National Park)*

Save precious clean water from being wasted

Triton Xerophyte is the only mixer that doesn't leave you standing wasting clean shower water as you wait for it to heat.

Spend more productive time in your bathroom

Attend to other bathroom routines while Triton Xerophyte prepares your shower. No time-wasting standing waiting for hot water.

Take the effort out of water-conservation

Triton Xerophyte does the conservation work for you every time you shower. No more buckets!

No more fiddling for the right temperature

Triton Xerophyte's pre-defined settings and automated temperature and flow controls ensure the perfect shower.

Full Parts Guaranteed

Each Triton Xerophyte mixer and controller is individually tested before it leaves the factory. Every mixer is backed by a full 3-year parts guarantee.

For a Cleaner Conscience

The Triton Xerophyte is proven to save more than 30% water compared with traditional showers.* The Triton Xerophyte is a more efficient and sustainable way to shower.

Made in the UK

The Triton Xerophyte water-saving digital shower is manufactured in the United Kingdom.

Easy to Install

The Triton Xerophyte is expertly engineered and rigorously tested to ensure the highest levels of quality and performance. It is also designed for quick, hassle-free fitting.

Quality Assured

The Triton Xerophyte mixer and controller is built under the manufacturer's ISO9001 accreditation for safety and quality. The Triton Xerophyte's electric components comply with BEAB & NRCS safety standards.

Water-Saving Features

No water wastage while waiting for the shower to warm up.

Continue with your bathroom routine until the alarm announces that the warm-up is complete and your shower is ready.

Shower timer with countdown display encourages a more efficient and focused water-conserving approach to showering.

Mid shower water-saving pause/restart function for shaving, soaping and shampooing.

An alarm sounds 30 seconds before shutting down in accordance with your pre-selected shower time.

Once the timer expires, the water flow stops automatically.
